Displays for County Fair 4-H Exhibits

Display boards are the only boards that can be used for 4-H projects.

1. Display boards are made of lightweight cardboard and are sturdy, attractive, inexpensive, and available at most local stores. They come in several colors. When opened, the 1 foot wide winged sides provide a surface to help the exhibits stand alone on a table top. **The standardized display board size of 4' x 3' is to be used for 4-H projects.**

2. No headers. No attachments are allowed on the display boards that would prevent the board from lying flat.

Tips

1. Boards must be easily read from a distance of 3-to-5 feet. Use large, bold letters (at least 3" high) for exhibit title or captions.

2. Design the exhibit, keeping in mind the size and shape of the open show board (three surfaces including the wings).

3. When mounting items on the display board, avoid things that are bulky or heavy which could cause the display board to collapse. Mount items securely so they won't fall off. Tape will not work.

4. You have only **60 – 90 seconds** for the message to be read; be concise.

5. Tell your story with visuals.

6. Avoid putting too much in the exhibit. It should never have a crowded look.

7. Dark lettering on a light background is most visible.

8. Do not use headers or attachments on your display board.

Binder: (For e-Records, additional materials, and manuals)

1. Use a sturdy binder to hold the e-Record, manuals, supplements, and other materials securely. **Use the smallest width binder option that can accommodate your materials.**

2. Stacks easily and lies flat.

3. **Do not use the slider-type binders** as the e-Record, manuals, supplements, and other materials will not stay secure in these types of binders.

Beginning Programming – a simple program using Scratch (or other simple graphic programming language). The program should include 8 different commands including looping and getting input from the keyboard and mouse.

Intermediate Programming – a program using Scratch (or other simple graphic programming language) that you have downloaded from the internet and modified. Compare the two programs and demonstrate the changes you have made to the original program; OR create an animated storybook or video game using Scratch (or other simple programming language).

Advanced Programming – creating a program using a block for script within the very script that defines the block Or an original program using higher level programming language such as Python, Javascript, C++, etc.

3. A stand-alone exhibit demonstrating a skill learned or an item developed. For example, a Makey Makey keyboard or a micro controller project.

Model Rocketry

Model Rocketry (Exhibit)

Superintendent –

Note to all units:

1. Rocket exhibits must relate to the skill level for the unit entered. Units 1 - 4 should include the color picture of the rocket and skill level title from the rocket-kit package as part of their record book. All project material must be organized and secured in a sturdy binder/notebook. Unit 6 must have a copy of plans or blueprints including instructions "step by step" to build the rocket.
2. Fins must be balsa wood (**balsa and basswood**) and finished with paint in classes indicated. **No plastic fins for Unit 1 – 3.**
3. Fins of plastic or other materials must be exhibited in Units 4 and 6.
4. Unit 4 members may build helicopter and glider recovery rocket kits.
5. Rockets are to be displayed and held **vertically by a substantial rod or support** no taller than the rocket on a **stationary** base appropriate to the size of the rocket not to exceed 12" x 12" x 1" thick. Only the rocket will be judged. Do not decorate the base. **No triangular stands can be used for displaying the rockets. No launching pads should be used for displaying the rockets.**
6. Do not include live or expended engines in the rocket exhibited.

Note to all units:

6. If rocket is damaged in launching, it can still be judged for quality of construction, e-Record, and pictures. **Launching your rocket is not a requirement. It is a good idea, however, to make 2 rockets – one for exhibit and one to launch if possible. At least one rocket should be launched as part of the project to complete the "Launch Information" section of the supplemental sheet. If you are not able to launch due to a fire ban, etc. you must have an explanation on that sheet.**
7. Display rockets cannot be used for Rocket Fly Day competition.
8. **Any decals used must be on the rocket.**

Note: Please read specific rules for your Unit.

Woodworking

Superintendent – Stan Heeneey

Units 1, 2, and 3 in Woodworking have very specific restrictions on the tools used in building an article to display. This is done for reasons of safety and to provide a fair comparison among projects in a unit. An exhibit that shows evidence of not following these restrictions will not be considered for Champion or Reserve Champion.

Projects for Units 1 and 2 will be a maximum size of 3’x3’x7’ as they are meant to be used or displayed. The item must be stable when standing to be displayed

Note: In making all placings, judges will consider straightness, accuracy, and smoothness of saw cuts, the difficulty and preciseness of joints, the skill employed in the use of nails, screws, gluing and other hardware, freedom from tool or sandpaper marks, appropriate finish evenly applied, article attractiveness, proportions, and use of proper wood for the intended use, ability to follow instructions, quality of workmanship and completeness of e-Record. Always use proper safety gear. (For large exhibits – like beds – please bring only the head and foot boards. No rails. **(Please notify the Extension Office in advance if exhibit is oversized.)**)

Exhibit Requirements

All exhibits will consist of the following:

A. Completed Woodworking e-Record with the plans used for making the exhibit (tell if the plan was your own, manual or other) presented in a sturdy binder/notebook.

B. Include the following information on the Woodworking page:

1. Plan source used (your own, manual, or other)
2. Kind of wood used
3. Names of joints and fasteners used
4. A drawing or other copy of a plan for the article exhibited:
 - a. dimensions
 - b. list of materials used
 - c. description of any changes in the article’s specifications
 - d. reason for the changes
5. List of all articles made

The drawing or plan itself will not be judged. It is only for the judge’s use in judging the article exhibited. If the drawing is missing, the exhibit will not be considered for Champion or Reserve Champion.

C. Any one article constructed by the exhibitor using the skills learned in unit.

Project Exhibit Rules for All Units:

1. Indicate in e-record whether articles are made from kit or if self-cut and designed by the member.
2. A set means a number of things of the same kind that belong, or are used together, (i.e., six matching coasters, belt, and buckle with matching designs, etc.)
3. It is suggested (not required) to do Units 1 – 3 in order. Units 4 – 9 may be taken in any order, and members in Units 4 – 9 may exhibit in more than one unit, provided the member is enrolled in and has completed the requirements of each of the units exhibited in. The primary skill being developed) the new technique you're learning) in the project will help determine which unit to exhibit in.
4. Put name, age, and county on back of exhibit board and on tag attached to individual exhibit articles.

5. Definitions:

Background Dyeing – dyeing a solid color to the area tooled with the background.

Carving – is where you cut into the leather (usually swivel knife) as part of the design you are tooling.

Clear Finish – is a top finish for tooling leather that has no color in it to protect leather. Some are waterproof, and some are not. For example, oil (no color added), leather finish spray or wipe (no color).

Color Shading – is using shades of color to make the design look more realistic. For example, you can use darker and lighter shades of a color on a tooled flower, animal or figure of any kind to make it look more realistic. **Paints will be accepted.**

Decorative swivel knife carving - is carving a pattern that just uses the swivel knife to make a line drawing. Shading is done with more lines (hatching).

Figure carving – is the carving of figures (i.e., persons, animals, objects, etc.)

Lace – is flat with a shiny side and rough side.

Pictorial carving – is the adding of background areas (i.e., trees, fence, mountains, grass, etc.) to the carving to make the picture complete. (Note: All pictures meant to be hung need to be complete with hardware to hang for display, whether framed or not.)

Sewing Thread – is round thread, waxed or not.

Solid Color Dyeing – is where you dye the whole project the same color. For example, you tool a belt and then dye it all black, or you make a book cover and dye it all one color.

Staining/Antiquing – will add a little color and bring out and enhance cuts, tooling and stamping. Usually, it is a cream that is applied and wiped off.

Stamping/Tooling – is where you use impressions made from tools to form a design.

Traditional carving – includes floral, scrolls, oak leaf, maple leaf type patterns.

Two tone finish – is a technique where an area has a clear finish, which will give a two-tone effect after an additional antique finish is applied.

Matting Photos Guidelines

Matting adds dimension to compliment and accent the photo. Matting will help focus attention on the photos and add visual interest along with balance to a layout.

Matting a photo means to put a border around it. Choose a color that brings out another color in the photo but is different than the background color. Light matte colors will help lighten a dark photo and a dark mat color will make the colors look deeper and richer.

For county and state fair display, please select a photo that is 5" x 7" in size that is one of the photo techniques you are using within your unit (read specific requirements for each unit). The maximum size for the matted photo will be 8" x 10".

These photos will be hung for display. Please attach string or some type of hanging mechanism for the photo to hang. Please do not put the photo in a frame.

Please attach to the back of your photo the following information:

- Member Name
- Member County
- Subject
- Date Photo Taken
- Notes

If you use decorative or gift wrap paper or fabric, it must be covered in food quality plastic wrap.**

2. It is recommended that members learn the basic cake decorating skills included in Units 1 – 3 before taking any of the more advanced units.
